ECONOMY CLUB MEETS THIS EVENING AT 8.15

The Political Economy Club will hold a meeting tonight at 8.15 in the smoking room of the Arts Building. The subject under discussion will be "Canada Labour: Its National and International Aspects." Papers bearing on the subject will be read by J. H. Blumenstein and Charles Brownstein. Blumenstein will concentrate his attention upon the national aspect of Canadian Labour, while Brownstein will deal with the international aspect. The meeting promises to be an interesting one. Attendance is not restricted to members of the club and all are invited to attend. Dr. Leacock, Dr. Henneon, Dr. Day, and Mr. Fife are expected to be present. Refreshments will be served during the course of the evening.

"Have you anything to say prisoner, before sentence is passed," asked the judge.
"Nothing, except that it takes very little to please me."

—The Highlander

SCORES WERE GOOD IN REVOLVER SHOOT

In the second C.I.R.A. 363 competition held on Tuesday evening the following scores were made by the team:—

Morris	94
Nader	93
Hyde	93
Delcettier	93
Williams	92
Puddicombe	92
Yerxa	90
Shotwell	89
Croll	89
Reid	87

Other contestants were:—

Lyons	87
Manville	85
Moore	85
MacRae	84
Pennell	76
Matheson	74

SIX MEMBERS OF DEBATING TEAM SPOKE

League of Nations and Past Record

DEBATES COMING

Intercollegiate and Meets
With Cornell, Bates,
and Dalhousie

Upholding the negative of the resolution "That the past record of the League of Nations has justified its continued existence" six candidates for the Intercollegiate Debating Team each spoke for a few minutes before the Literary and Debating Society's critic, Mr. T. W. MacDermot in the Music Room of the Union yesterday. This try-out was the sequel to the one held on Monday and was the last opportunity offered to those who wish to represent McGill on February the twenty-eighth.

On that night two speakers from the University will go to Toronto to engage the Varsity men there, while two more will take on Queen's speakers who will come down to Montreal. Although only these four men will be chosen to debate in the Intercollegiate competition others may be picked to exchange repartee in the meets which have been arranged with Cornell, Bates, and Dalhousie Universities.

James, the first man to speak against the League, commenced by giving an outline of its aims and purposes, which he said, were to prevent wars and further all humanitarian ideals. How and why the League of Nations, with few exceptions, had failed in such projects formed the basis of his address.

Porter then got up and traced the European diplomatic system of preserving the balance of power from its inception to the reign of Henry the Eighth to the present day. He showed how this system protected the smaller nations, preserved liberty, and kept any one country from becoming too strong. He said that this is a natural system which has grown up among the nations. How well it functioned could be illustrated by the few wars which have broken out during

(Continued on page 3)

NOMINATIONS FOR STUDENT OFFICES

Four Positions to be Filled By
Election on March 12

It is announced that nominations will be received at the office of the secretary of the Students' Council in the Union for four student executive positions: president, vice-president, and secretary of the Union. Nominations must be in the hands of the secretary by Saturday noon, March 1st, and must be signed by at least twenty-five students. Elections will be held on March 12th.

The presidency of the Students' Council, the highest office in student organizations, involves a good deal of responsibility, and capacity for leader and ability to master details. Its possessor must have a thorough grasp of almost every phase of student activity and must be able to give unsparingly of time and effort to the demands of the office.

The presidency of the Union involves control of the matters pertaining to the Union, and requires of its holder an ability to keep a watchful eye on the financial progress of the Students' Club House, and to so conduct the business side of it that the Union will be financially successful.

The other two offices on the Union House Committee also require the services of the most capable amongst students. Incumbents must be able to attend to promptly and systematically.

It is expected that competition for the offices will be keen. As in former years a large number of nominees will enable the voters to choose a representative who has the qualities that make him most eligible for the prospective office.

Nominations and elections for other student executive positions will be held at a date to be determined later. Positions, such as presidents of the Canadian Club, the "J.L.", and the Music Club, which were formerly filled by appointments, will this year be filled by elections as in the case of other offices.

He—Do you like the Ritz?
She—No, mother said that I must learn to dance before I begin to enjoy myself.

—Jack O' Lantern.

STUDDERT KENNEDY AT HALL TODAY

Was Delayed by Illness; Will
Speak at Five O'clock

Mr. G. A. Studdert Kennedy will speak in Strathcona Hall this evening at 5 o'clock.

While in Toronto Mr. Kennedy was indisposed with asthma and arrived in Montreal too late for his appointment to speak to the students on Tuesday, and is yet in very bad health.

Yesterday he addressed a large body of students and others, in the Westway College, and his address showed that the recent illness had taken nothing from his well-known powers as a speaker and as a "practical thinker." "Woodbine Willie" as he was known to the "Tommys," has much in common with all students. As has been told in these columns already he has served as a padre, is a writer of both prose and poetry and a teacher.

It is hoped that those who were disappointed by his inability to come to McGill on Tuesday will be able to avail themselves of the opportunity of hearing him this evening.

After a short service in the Cathedral at eight o'clock he leaves for the east at nine tonight.

Heard in Latin Class, Miss M-reh, translating, "And speaks with his voice like this."

Prof.: "Do you ever speak without using your voice Miss M-reh?"
M. M.: "No, sir."
Prof.: "Yes you do. You speak with your eyes."

Dumb—"Do you believe in heredity?"
Dumb—"I certainly do. Why, my six months' old son is always trying to get his toes into his mouth as a result of my trying constantly to make both ends meet."

The Medical Undergraduates are asked to assemble at the Union today at 1.45 p.m. to proceed from there to the funeral of the late Miss Brandt which will be held at Knox Crescent Church. A large attendance is requested.

CO-ED WIFE IS SUPERIOR IN THE HOME

Cercle Francaise and Societe Francaise Meet

BIG AUDIENCE

Debate and Refreshments
Feature Joint Meeting

Last night, a joint meeting of Le Cercle Francaise and Le Cercle Francaise was held in the Union hall room. Despite the stormy weather, there was a large attendance, due, no doubt, to the fact that the subject of the evening's debate "Resolved, that the College Girl makes a better wife than the Business Girl," was one of vital interest to both the men and women students. The decision was in favour of the ladies who, naturally, upheld the affirmative side of the question. The men were the more polished speakers, being senior students, while of the co-eds were first-year students. Miss Massey-Bayly was clearly the best speaker for the affirmative having had considerable debating experience.

After the minutes of the previous meeting had been read, the chairman, Prof. DuRoi, introduced the speakers in turn, with a few witty remarks.

The affirmative, the Misses, Massey-Bayly, Seriver and Lyman, stated that the college-trained girl makes a better wife than a business girl because of her intellectual training which enables her to be the equal of her husband, able to discuss with him and advise him in his business matters; makes her a better mother to her children, fully competent to guide them in their education; and teaches her to appreciate life in a way that the business woman does not.

The debaters for the negative Messrs. Millington, Lafleur and Spector, said that the business woman makes a superior wife because she has the practical knowledge that the college girl has not, she is able to stand the strain of monotonous work, having been accustomed to go to her business whether she felt well or not. They declared that a woman who has had to earn her living for several years

(Continued on page 3)

PREPARATIONS FOR THE MEDICAL PROM.

Medicos Advised to Get Their
Tickets Immediately

Already plans are well under way for the Medical "at-home" which is to be held on Friday, February 29th, in the new Medical Building. The Committee in charge has been exceedingly fortunate in receiving the assistance of Mrs. C. F. Martin, Mrs. E. W. Archibald and Mrs. J. C. Simpson in making the preliminary arrangements for the dance. Mr. Lemieux of Goodwin's Ltd. has kindly agreed to assist in developing a scheme for the decorations of the museum and various halls of the Medical Building. The suggestion of Mr. Lappin of Woodhouse Co. in connection with the securing of furniture from the various furnishing houses, for sitting-out places, is also well received by the committee. All Medicos who have in the past enjoyed tripping the light fantastic to the tune of one of McGill's famous orchestras will again have a similar pleasure, for Moore Kelly's seven piece orchestra—a unit which renders harmonious appeal, alike to Cellophane and Buttercup—will play for the dancers.

On the three floors of the museum there will be ample room for all to dance and the three "L"-shaped corridors will provide space for some of the sitting-out places. Supper will be served in three sittings in the Assembly Hall. There will be tables for parties of two, four, and eight, and a supper to satisfy the most cynical epicure. The use of the Assembly Hall for a "salle a manger" has necessitated a change in the lighting of the room which will be very effective.

The old high-school practice of writing from exchanges on the backs of envelopes will be unnecessary this year, for the programme will be issued "de bonae heure" in order to avoid confusion in arranging for dances and the supper.

The Committee has kept in mind the fact that 1924 is Leap-Year, and has made provision for extra amusement for "February then has one day more".

The class representatives still have some tickets for the dance and any Medicos who desire to attend the dance had better obtain tickets at once.

ALUMNAE TO GIVE DIMINUTIVE DRAMAS

Humorous Plays on March 8,
at R.V.C.

The McGill Alumnae Society, in collaboration with members of the staff, will present five short plays on Saturday evening March 8th, in the Royal Victoria College.

These are the famous "Diminutive Dramas" which have now become one of the most popular events of the College year. All those who have attended them in the past will look forward to an evening which is sure to offer many opportunities for laughter.

The programme will be as follows:—
"Suppressed Desires." A skit on Psycho-Analysis, by Susan Gaspell.

"McGill 1974." A play written for the occasion, by William Carless.

"The Soul Call." An up-to-date Piffle play, by Stephen Leacock.

"The Sub-Contractor." An Ibsen Play, by Stephen Leacock.

"A Russian Drama." Acted in dumb-show, by Stephen Leacock.

During the intervals the McGill Mandolin Club will play.

OLD SCOUTS TO HEAR DOMINION CAMP CHIEF

Mr. C. Rodney Wood, world-wide traveler and present Dominion Camp Chief, will address the Old Scouts' Club at their supper to-night. Mr. Wood was born in Rhodesia, and has travelled in almost every country in the world especially Africa. He has a very large fund of anecdotes concerning his adventures, and this, coupled with his charming personality, make him a most interesting speaker. He is well-known and highly esteemed by many university men. Mr. Wood is at present instructing in a training course for Scout Officers, at the Central Y. M. C. A. on Thursday evenings. The public are invited to attend the meeting.

Tickets (\$1.00) may be obtained from the following:—
Secretary of the Royal Victoria College, McGill Library.

Miss May J. 863 University St., Plateau 1498.

Cuthbert wants to know why the voice of love has such a metallic ring.

Puddle Cow.

MONTREAL, THURSDAY, FEBRUARY 21, 1924.

McGILL AND TRADITIONS

McGill, from a national viewpoint, is an old University, for this institution of learning was active even a quarter of a century before the Act of Confederation brought the Provinces together as the Dominion of Canada. A century, it is true, is but an infinitesimal period in the long stretch of time which leads back to the paleolithic era and into the dim mists which even modern science, with all its accumulated power and might, cannot pierce satisfactorily. But a hundred years constitute an important stage in the life of a young people, for it is often the opening days which forecast the future of a nation. And McGill has grown up with Canada, playing a role of great importance during the past ten decades in the dream of national development. The University has contributed much to the Dominion and even to the world at large, but in doing so all has not been along the road of opulence and ease. There have been hard days when the benefactors of McGill had to fight for its life. For thirty years the university was almost "steeped in poverty to the very lips" and to this financial embarrassment was added the dead weight of administrative difficulties. But the optimistic efforts of those who laboured on with energetic faith, saved the hopes and dreams of James McGill from perishing even in the first moments of realization and once over the ridge the college of the three martlets entered upon years of expansion and steady growth. Great men like Sir William Dawson, Lord Strathcona, Sir William Macdonald, Sir William Peterson, Peter Redpath and a host of others helped McGill along the hard road and their names are names which should be known and honoured.

It is not hard, therefore, to see that our Alma Mater has a history and that we are heirs to a century of traditions but it is to be feared that undergraduates, for the most part, live in complete ignorance concerning that which has gone before, taking their wonderful opportunities and advantages for granted and worrying little about how these favorable circumstances have been placed at their doors. We enjoy a remarkable heritage but little do we realize the efforts and the agonies which were necessitated before this accumulation of benefits could be handed down to us, the students of to-day.

Yes, McGill has a history, has its noble traditions; but to the average student these things are unknown and are as far distant as an intimate knowledge concerning the hypothetical development of the paleozoic age. But we should know the story of McGill, even as we should know the tale of our land. If we knew a little more about our Alma Mater and those who have helped her, a new spirit would spring up among us and a love, unknown before, would be felt towards the institution at which we are studying. We must either acquire this knowledge for ourselves or we must have it taught to us. As the latter is not done at present, let us therefore try and find out even a little about our college. Such is not a hard task. And we might suggest—if such is not too presumptuous—that it might be beneficial if some day those who sit in authority would institute the custom of welcoming first-year men to college by spending a lecture period or two in giving the freshmen a brief outline of the story of McGill. Knowledge usually means appreciation but at present many have not the knowledge.

CONDENSED COMMENT

The annual elections for the positions of president of the Council, president, vice-president and secretary of the Union, will be held on March the twelfth. But in the meantime nominations for these important vacancies are being called for, full details being published in this issue. These offices are of the utmost importance and you are asked to make your selection of candidates with the greatest degree of care and thoughtful reflection. A man to be nominated must be of the highest calibre, with ability and with a good past record. The choice of candidates is your business and you should give it your immediate and careful attention.

AMERICAN AND CHINESE SIMILAR BUT FOR COLOR

"American students and Chinese students are essentially the same," said Miss Mohling Ma, student in the University, from T'wan, Shantung, China.

Miss Ma said that about the only noticeable difference is in skin and language, and that, after all, these are only comparatively superficial things. Students in China and America have the same emotions. They laugh and cry over the same things and have the same fundamental likes and dislikes.

Miss Ma came to America three years ago, her purpose being to take advantage of better educational advantages in this country. When she left China she knew very little English, but now she speaks it fluently and does well in her courses.

She speaks enthusiastically about her native country, particularly the Students Union in the Chinese schools. All the schools in China, from high schools to universities, inclusive, are in the organization. Individual schools are represented in a big national Students Union.

"Until the time of the Washington conference," said Miss Ma, "the Chi-

and it was not the intention of the government to listen to the union on political matters to be dealt with at the conference. But upon the government's persistence in refusing to listen to the wishes of the people expressed thru the union for Japan's return of Shantung to China, the fine organization of the students brought about a nation-wide strike of all industries. On the third day of the strike the government agreed to all the demands of the union, and the result was felt throughout the world. Japan gave up Shantung."

NOTICES

WICKSTEED CONTEST

Special practice in preparation for the game scheduled for yesterday the Contest will be held to-day from 5 to 6.30 p.m. in the Montreal High School Gymnasium. All interested will be welcome.

SLEIGH RIDE

Will all the members of Arts '25 who wish to go to the Leap Year Sleigh Ride of the class on Wednesday, February the 27th, please hand their names in to one of the following: H. D. Macmillan, W. G. Gardner, or H. V. Fortune.

FACULTY OF SCIENCE

The annual elections for the officers of the Science Undergraduate Society are to take place about the first of March. Nominations close Monday, February 25th at 12 o'clock noon. All nominations must be signed by at least ten men and handed in to A. O. Leslie, Science '21 not later than the time mentioned above.

The officers to be filled are as follows:

President, elected from present third year.

Secretary, elected from present second year.

Treasurer, elected from present second year.

Assistant Secretary, elected from present first year.

Reporter, elected from any year.

ROOTERS' BAND

The last and final appearance of the band will be at the Senior Intercollegiate hockey game between Queen's and McGill on Saturday Feb. 23rd. After all the criticism in the correspondence column, the rooters will be out in force and it is up to the band to help them out. There will be a practice on Friday at 5 p.m. in the Music Room of the Union and a full turnout is requested.

TRACK MEN NOTICE

It is expected that a large indoor track meet will be held here at the end of March, in preparation for the Olympic games. Track practice for McGill runners will take place on Monday's, Wednesday's, and Friday's, at the Montreal High School, from 5.30-6.30 p.m. All runners are urged to turn out.

5-6. Commerce vs. Dentistry.

FREE LECTURES

Professor Basil Williams will give a course of Public Lectures on "Three Makers of the United States," Thursday, February 21st, Thursday, February 28th, and Thursday, March 6th at 5 p.m.

1.—Alexander Hamilton, Maker of the Constitution, 5 p.m., February 21st, Royal Victoria College.

2.—Andrew Jackson and the Irruption of the West, 5 p.m., February 28th, Royal Victoria College.

3.—Abraham Lincoln, 5 p.m., March 6th, Royal Victoria College.

These lectures are free and no cards of admission are required.

SENIOR RUGBY

Will the following 9 men call at the Union and get coat-sweaters. Bill Holden will be there between one and two o'clock all this week. Please get them as soon as possible.

McGregor, Little, Woodruff, Manson, Amaron, Robertson, Anderson, Philpotts McGillis, Wilson R. B.

LIST OF UNCLAIMED LETTERS IN THE REGISTRAR'S OFFICE

Barker, Denis; Bernstein, Miss R.; Dale, Dr. Henry; Dickson, Nelson; Galloway, W.; Gwyn, Dr. Norman B.; Loves, Maxwell; Ludlow, T. W.; Mackintosh, Miss Violet; Manville, Alfred; Mapplebeck, Thomas E.; Minish, Dr. N. J.; Myler, B. (Myles); Ware, Joseph.

The Registrar would be glad if students or others who know the address of any of the above would notify him.

WESTERN CLUB

There will be a luncheon of the Western Club in the Union Saturday at 1 p.m. Dr. Arbuckle of British Columbia will attend. Members expecting to attend this luncheon are requested to give their names to some member of the executive in the respective faculties.

COSMOPOLITAN CLUB

The next meeting of the Cosmopolitan Club will be held at the Strathcona Hall on Friday, February 22nd, at 8 p.m. Reich, a former student of Prague and at present studying at McGill will address the meeting on Student Conditions and the Present Political Situation in Austria. All interested are invited to attend and join in the discussion.

ALMA MATER DANCE

Suggestions are requested for the Alma Mater Dance. A free ticket will be given to the man submitting the

best programme. The design must be in by March 1st.

The Research Council of Canada

A number of Studentships of the value of \$1,000 each, and of Fellowships of the value of \$1,200 each, will be awarded by the Research Council of Canada in the second quarter of the current year.

The Department of Science in which capacity for research will be accepted as qualifying for a Studentship or Fellowship are: Biology (economic), Chemistry, Engineering, Geology, Metallurgy, Mineralogy, Physics and Physiology (in its industrial applications). Applicants must have had at least one year's experience in research work, subsequent to graduation from a recognized University.

Application for these Studentships and Fellowships should be made not later than April 15. The awards will be announced one month later.

In addition to the Studentship and Fellowships, bursaries, having a value of \$750 each, will be awarded by the Research Council on June 15, to the best qualified applicants therefore. These must be graduates who have obtained high standing in Science in their undergraduate courses and also at graduation, and who give promise, under special training, of developing a high capacity for research in Science.

Application for these Bursaries should be made not later than May 25.

Copies of the regulations governing the award of Studentships, Fellowships, and Bursaries, together with forms for application, may be obtained from the Registrar or Secretary of the University or College with which intending candidates are connected, or from the Research Council, Ottawa.

Applications should be addressed to the Research Council of Canada, Ottawa.

NOTICE

The second Montreal High School graduate informal will take place on February the 29th, in the gymnasium room of the school the tickets of which may be obtained next week at the office.

INDOOR BASEBALL

Games scheduled for Friday will be held on to-day instead, on account of Wicksteed Championship.

INTERMEDIATE 'A'

The game scheduled for to-night with King's Club is postponed until next week, the date of the game will be announced later. Practice at M. A. A. to-day at 6.30.

WICKSTEED COMPETITION

The Wicksteed Gymnasium Competition will be held on Friday the 22nd at 5 p.m. and on Saturday the 23rd at 2.30 p.m. at the Montreal High School Gym.

OLD SCOUTS' CLUB

The next meeting of the Old Scouts' Club will take place to-day at 6.00 p.m. in Strathcona Hall in Room A.

NOTICE

The fifth meeting of the McGill Political Economy Club will be held on this evening; February 21st at 8.15 p.m. in the Smoking Room of the Arts Building. J. H. Blumenstein and Chas Brownstein of Arts '24 will read papers on Canadian Labour: Its National and International Aspects. Economic students and others interested are invited to attend. Refreshments will be served.

ARTS '24

MEN'S GRADUATION PICTURES

Members of the class are asked to call at Notman's Up. 4975 or at 225 Peel Street for appointments immediately so that the pictures may be completed as soon as possible. A deposit of two dollars has to be paid before portrait is taken. It would greatly facilitate matters if groups of four or five students would make arrangements for the same time. This includes the B.A. B.Sc. in Arts B.Sc., M.D. and B.A. (Arts).

HISTORICAL CLUB

Members are asked to note that the date of the joint meeting with the R. V. C. Historical Club has been postponed until Tuesday evening, Feb. 26th when Miss Joan Foster, B. A. and E. A. Forsey will address the two clubs on "Queen Caroline" and Sir Robert Walpole" respectively. All members are requested to be present in the R. V. C. on that date.

MUSIC

A series of lectures on "Sound and its relation to Music" will be given by Prof. H. B. Reilly, in the Physics Building from 11-12 a.m. on Saturdays for the next ten weeks.

MEDICAL DANCE

The annual Medical Dance will be held on February 29th. All those who desire to obtain tickets may do so by applying to class representatives.

BASKETBALL

Senior and Intermediate A. Basketball teams will practice in the High School Gym. on Tuesday and Thursday at 5.00 instead of on Monday, Wednesday and Friday.

DISCUSSION GROUP
The Industrial Discussion Group will hold their postponed meeting to-day at 5.00 p.m.

PHYSICAL SOCIETY

The next meeting of the Physical Society will be held in the Macdonald Physics Building Friday, February 21 at 5 p.m. Experiments will be shown and a colloquium will be held. All cordially invited to attend.

BASKETBALL

Saturday, February 23rd
8.00 p.m.—McGill Juniors vs. Ex-celciors.
9.00 p.m.—McGill Intermediate "B" vs. N. A. A.

ELECTRIC CLUB LECTURE

The Electric Club will hold a luncheon in the Union on Monday February 24th. Mr. Gregory of the Shawinigan Company will give a table on "Power Sales." Mr. Glen Adney has kindly consented to give a few selections during the luncheon. Tickets 50 cents each.

NOTICE

Meeting of the Executive of the English Rugby Club will be held in the Lounge Room of the Union to-day at 5 p.m. All office bearers are asked to turn out for there is important business to be done.

GLEE CLUB

Every member of the Glee Club must turn out to-night at seven o'clock sharp. Barely three weeks remain till the concert and in that time a great deal of work must be done. Each member is requested to do his level best to attend regularly from now on, otherwise the club cannot do itself justice.

ELECTRICALS

The Electric Club will hold a Technical Session in room 53, Engineering Bldg. at 5 p.m. Friday Feb. 22. C. Phipps will give an illustrated paper on the La Gabelle Power Development.

STUDENT KENNEDY

Mr. G. A. Studdert Kennedy will speak to the students in Strathcona Hall at 5 o'clock this afternoon.

AMERICAN CLUB

A smoker has been arranged for next Tuesday evening Feb. 26th. Further details will be published with the next few days.

JUNIOR HOCKEY

There will be a practice at the Mount Royal Arena to-night at 6.00 o'clock.

ARTS '25

A class meeting will be held at 12 o'clock to-day in Arts Bldg. Everybody out.

CITY LEAGUE INDOOR BASEBALL

McGill Whites vs. U. of M. at M. H. S. at 6 p.m. to-day. Will the following please be out:
Peacock, Philpotts, Scott, Goucher, Dreger, Eddy, Milne, Davis, Tatley.

FENCING—IMPORTANT

Members of the Fencing Club are urged to note that Thursday's fencing practice has been unavoidably postponed till Friday at Same Hour. The large Hall in Strathcona Hall is being used for Dr. Studdert Kennedy's address. Fencers please come Friday. Next week practices will be held regularly on Tuesday and Thursday evenings.

INTERCLASS HOCKEY

The Game between Med. 25 and Dent '27 which was to be played to-day will take place to-morrow at five o'clock.

C.O.T.C. ORDERS

SPECIAL ORDER

By
LT.-COL. R. R. THOMPSON, M.C.,
D.C., McGill C. O. T. C.
Cavalry and Artillery Examinations at St. John's, P. Q.
Permission having been obtained for the following to be absent from lectures on Saturday morning for the purpose of the above, the following will proceed to St. John's on Saturday, February 23rd, by train leaving Bonaventure Station, C. N. R., at 8.35 a.m.
Lieut. G. A. Grier, Lieut. F. W. Lundy, C.Q.M.S. S. D. Nadler, Sgt. Morrison, Cpl. C. L. Ransome, Cadets R. C. Batts, T. H. Harris.
Lieut. G. A. Grier will be in charge, and on arrival will report to Major E. L. Caldwell, R.C.D.
F. S. Lawrence,
Captain & Adjutant,
for O.C., McGill C.O.T.C.

"Pa."

"For goodness sake, what is it now?"

"This book is called Shakespeare's works."

"Well, what of it?"

"You said they was plays."

—The Highlander

MUSIC CLUB

Two pianos have been placed in the Music Room of the Union for use of members, key for same can be procured at the Tuck Shop by students showing the membership card of the club. Membership cards will be issued upon payment of fees to Secretary-Treasurer, W. Shepherd, Arts '26.

CHEMISTRY COLLOQUIUM

Mr. Paul G. Hiebert will be the speaker at the colloquium this afternoon, taking as his subject "The Fall of Potential of Hydrogen Occluded in Iron under the Influence of a Magnetic Field."

An invitation is extended to those who are interested in the subject.

LECTURES IN PHYSICS

On Thursday, February 21 in Room 1 Physics Building at 5 p.m. Dr. A. S. Eve, P.R.S. will give the fifteenth graduate lecture of this session, on "Atmospheric Electricity," the third of a series of three lectures on this subject.

THEATRE NIGHT R. V. C.

There will be an important meeting at one o'clock on Friday, Feb. 22, in the Common Room. Will the following girls please attend. E. Greene, H. Gilles, F. Secord, E. L. Herzberg, E. Longworth, L. Chalk, M. Brown, J. Robins, M. McWatters, M. Brooks, L. Norris, J. Mack R. Granger, A. Turner.

R. V. C. ROOTER'S TICKETS

All those who wish tickets for the McGill - Queens game on Saturday night please sign the list on the Athletic Notice Board.

R. V. C. BASKETBALL

The team will meet at the Bonaventure Station today, Thursday, at 9.30 a.m.

S. C. A. of R. V. C.

There will be a general meeting of the S. C. A. on Thursday, February 21st, at 4 o'clock in the Common Room. Mr. Mukerji of Calcutta will speak on "India in the Balance of Christianity."

R. V. C. ANNUALS

Will all those who wish annuals and did not sign up for them please give their names to their Class President to be handed in to the R. V. C. Annual Representatives.

BAR-ROOM BALLAD

Charlotte, the charming cheek-girl,
Smiles a dollar the first time,
After handing back your hat
She lowers it to a dime.

Hannah, the hysterical husher,
Just fastens a grin on her lip
After she's inspected your wardrobe
Finds you no good for a tip.

A word of advice from an old hand
To some of you new in the game,
It's just a money proposition
The smile from such a dame.

ELLIOTT &

CITY LEAGUE CHAMPIONSHIP IN BALANCE

St. Anns and McGill Tied for Leadership

EVENLY MATCHED

Championship Practically Depends on To-night's Tilt at Victoria Rink

At 8.15 to-night at Victoria Rink Coach Shaughnessy's puck chasers will match their skill against the speedy St. Anns sextette in a scheduled city league fixture.

The game is an important one and the championship of the league practically depends on the outcome of the struggle as both the Red and White and the Green and Red have a commanding lead on the other league teams and although each have two more games to play after to-night's tilt, unless the hockey dope is upset, the winner should have no difficulty in disposing of both of their coming contests.

If McGill loses, her chances of the championship are very remote and the same applies to St. Anns. So to-night's affair should be a strenuous battle with both teams giving their best with the result that the fans should be treated to a snappy exhibition of hockey. Each sextette has lost one game, St. Anns dropping their only fixture to McGill while the Red and White sustained an unexpected defeat by losing to Shamrocks in an overtime struggle by one goal.

To-night will see the two best aggregations in the City League fight it out for the honours and unless advance indications go astray, a sizzling brand of hockey should be dished up.

Both teams are at full strength and there is not much to choose between them. The St. Anns players have plenty speed and have been displaying a flashy brand of hockey all season while Coach Shaughnessy's men have been exhibiting splendid combination in recent games and the result of the struggle is doubtful neither team having any distinct advantage.

Of late, very few have been turning out to the City League games but there has been some good hockey and the fans are assured of a spectacular game when the college sextette meets up with the Green and Red to-night.

The team will be practically the same as that which faced Queens last Friday with the exception of Matty Dineen. Jerry Reid will guard the net with captain Dempsey and McMahon in front of him on the defense. Reid is turning in as fine a game as any of the intercollegiate goal keepers and can be depended on at all times. Dempsey is a reliable player and uses his weight to advantage while in the game at Kingston, McMahon turned in a good card and showed flashes of speed and stickhandling.

McGerrigle will hold down centre position and his backchecking should be a thorn in the sides of Green and Red puckchasers. Supporting him on the wings will be Glennie and Wyse. Both these players are tricky skaters and can hold their own with the St. Anns' wings. Wyse scored the only McGill goal at Kingston while Glennie has been showing some good stickhandling. Bobby Bell as a substitute can be depended on to fill the breach and he seems to have struck his stride. The St. Anns' line up will be practically the same as that which succumbed to the Red and White in the last tilt although it will be strengthened considerably for tonight encounter.

Sudden in goal is a reliable player while Spraggins and Doyle on defense are a hard pair to get by and show up well in handling out body checks. Degray, Munro and McDonnell make a trio of forwards who have speed to burn and who are qualified to keep up a hot pace throughout the game. McCordie, Tucker and Green are a reliable bunch of substitutes.

The Red and White players are out to win and as the championship practically hangs in the balance, a large number of rooters are expected out to cheer the team on and they are assured of sixty minutes of snappy hockey.

CO-ED WIFE IS SUPERIOR IN THE HOME

(Continued from page 1)

will be more saying than one who has not had this experience. They held, in their somewhat inexperienced opinion, that a man does not want to talk business with his wife for when he returns tired from his work, he wants quiet repose and lighter conversation than he has been accustomed to during the day. They believe that marriage does not depend on science, economics or any other branch of college training but entirely on love.

While the judges were conferring, several of the members criticized the speeches and made comments. Miles, Tournier and Requit together with Dr. Villard, the jury, pronounced the ladies to be the winners and after more comments the meeting descended to the grill room where excellent refreshments were served.

ARTS WIN EASILY AGAINST SCIENCE

16-7 Score in Indoor Baseball League Game

Showing generally better form, the Arts Indoor Baseball team romped home winners by a 16-7 score over their opponents, Science, last night. It was in the third inning that Arts ran away with the points, scoring eight points. Their battery, especially that of Bronson and Brozman, was exceptionally good, though every man started in this way. Bronson contributed a great deal towards Arts' victory by his strong pitching, in one inning preventing Science batters from obtaining one fair strike.

The game was in the winners' hands right from the start, and though Science made good attempts to rally, after the third inning when the score stood 12-3 their efforts were fruitless.

The score by innings as follows:

Science	0	0	3	0	0	3	1	7
Arts	2	2	8	1	0	3	—	16

The teams:
Arts—Held, Brozman, Eddy, Bronson, Webster, Nafin, Abramovitch, Sassenwein.

Science—Scalan, Taitley, Upton, Burland, Mace, Munro, McClung, Craig.

The match between McGill "Reds" and Macdonald was called off, through the latter's team being late.

PRACTISING FOR PROVINCIAL MEET

Van Wagner Coaching Track Men in M.H.S. Gym

The McGill track men are busy practising for the Provincial Indoor track meet to be held in March. Coach Van Wagner is putting the men through such regular events as can be held in the gym. So far, many of McGill's regular track men have turned out, and a few others are also attending. The Montreal High gymnasium is being used, and this floor provides a hundred yard track. In addition, the hallway, about sixty yards long, is used for sprinting. These practices are held Monday, Wednesday and Friday at 5.30 p.m.

Among those who have turned out are Patterson, sprinting; Darling, hurdles; Hanna, a member of last year's football team, who is out for the first time in track work at McGill; Airey, who ran in the half-mile last year; and Gavaise, a sprinter who figured in last year's meet.

The Indoor Provincial track meet is a certainty, and will take place at an uncertain date near the end of March. The events to be contested are as follows:

60-yard dash, shot put, running high jump, 70 yard high hurdles, and standing broad jump.

SIX MEMBERS OF DEBATING TEAM SPOKE

(Continued from page 1)

the last century compared with the great number in centuries before. The nations of Europe were gradually perfecting this system asserted Portal. The League of Nations on the other hand, he continued, must do away with this system if it is to be true to itself. Portal asked whether the affairs of the world were to be trusted in such a League or not. He gave incidents which he thought proved that these affairs should not be left to the mercies of the League of Nations.

Shepherd, the next speaker, said that he admitted that the League of Nations was an embodiment of supreme idealism and that its originator the deceased President Wilson, was a man whom future generations will revere as a noble spirit. But this very idealism, he said, was precisely the fault—there being too much idealism and not enough of practicability. Shepherd drew attention to the ridiculous conduct of the League when the Turkish crisis of 1922 came on, and all that the League did was to institute an enquiry into the conditions in the harem.

Lloyd said the League of Nations had been started on a false basis, since it upheld the peace treaty of Versailles. Thus it would maintain conditions of the treaty which are likely to cripple Europe. The chief powers of the League are Great Britain and France. When they worked together, Lloyd went on, much could be done, but when one went against the other, nothing could be accomplished. It was a manifestation, he considered of the League's impotence that there are in Europe nearly a million more armed men than there were in 1913. This, he thought, was because the smaller powers could not trust in the League and were forced to maintain large armies in order that their safety should be insured.

Bathlaw likened the League in certain of its aspects to a fire insurance company which charged the same rates to a man whose house was isolated and fire-proof as to a man whose house was in a lumber yard in a district noted for incendiarism. He took up the much lauded article article ten of the covenant and denounced the manner in which it was carried out as hypocrisy.

Wells the last speaker, quoted the words of Clemenceau who, while Wilson was making his famous speeches, said:

R.V.C. TEAM LEAVES TODAY FOR KINGSTON

To Defend Laurels in Intercollegiate Basketball

THIRD MEET

Red and White Squad Will Clash With Varsity To-Night

The R. V. C. Basketball team leaves this morning for Kingston where they will defend their title as Intercollegiate champions against Varsity and Queens.

This is the third Women's intercollegiate meet to be held. The first one took place at Toronto two years ago and resulted in a victory for the home team. In the series of splendid games played last year in the R. V. C. Convocation Hall the Red and White team succeeded in winning the new trophy for Women's Intercollegiate Basketball which was presented by the McGill Students' Society. The R. V. C. team is very anxious to keep this trophy at McGill and will do their utmost to retain it.

R. V. C.'s success in city basketball this year augurs well for the future, as it has defeated all opponents except the M. S. P. E. who presented a very strong team. Although the R. V. C. team has only two of last year's intercollegiate players there are some newcomers who have shown their strength already, and a good combination has been worked up.

This evening the first match, between McGill and Varsity, will be played. On Friday evening Varsity will meet Queens, and on Saturday afternoon the final match will take place between Queens and McGill.

It is hoped that a large number of rooters will meet at Bonaventure Station at 9.30 this morning to see the team off and to show them that they have enthusiastic supporters at home.

The following is the R. V. C. line-up:

Shots—P. Murray, E. Russell.
Centres—C. Fraser, R. Dunton.
Guards—E. Dunton, G. Cameron.
Spares K. Runnels, M. McWaters, V. Perry.

GUNNERS DEFEATED THE INTERMEDIATES

McGill Loses Slow Basketball Game by 30-11

The Noted Machine Gunners defeated the McGill Intermediate B team last night at Molson's Hall to the tune of 30-11. The first period was very even, neither side showing good combination. The gunners having a great deal of luck with their shooting succeeded in scoring 14 points while McGill ended the period with 15 points on their end of the score. In the second half McGill showed better form but were unable to check the fast play and sure shooting of the gunners. The game ended with the Red and White at the short end of the score of 30-15.

Ferguson and Butler put up the best game for McGill while Jeff Russell and Baker starred for the machine gunners. The line-up:

M. M. Gunners	McGill
R. Forward	Tucker
L. Forward	Ferguson
Centre	Butler
R. Guard	Russell
L. Guard	Bastin
Subs	Milne
	Ball
	Coltee
	Spitzer
	Landry

The game was very satisfactorily handled by Eddie Bronner of N. A. A.

ple at a meeting in Paris that he had more faith and more hope in the old-fashioned diplomatic system and the balance of power. Wells then enlarged on several of the ideas presented by the preceding speakers.

Mr. McDermot then spoke to all the men and criticized them in their delivery, matter and gestulation.

WASN'T SHE SILLY
Mary bought a pair of skates
Upon the ice to frisk
Wasn't she a silly girl
Her dainty limbs to risk?

Football Players who intend playing rugby next year please fill in this form and leave at the Athletic Manager's office in the Union.

GYMNASTS IN FORM FOR WICKSTEED CUP

Winners to Enter Intercollegiate Meet

The Wicksteed gymnastic team are putting on finishing touches in their practices for the finals which will be held next Friday and Saturday. Everything points to a brilliant exhibition, as there has been a good turnout. Besides this, the winners of this meet will be chosen to represent McGill in the Intercollegiate Gymnastic meet. The winner in the Graduating Class will receive the Wicksteed Silver Medal and small "M."

Friday evening's programme will include drill, dancing, horizontal bar, parallel bar and mat exercises; while that of Saturday afternoon has the fence vault, standing hop-step-and-jump, and potato race events. Winners will also form the team to meet Westmount "Y" on March 1.

Entries are anticipated from the following:

Graduating Years (Wicksteed silver medal and small "M") H. G. Ross, H. S. Kirby, J. H. Ambrose, J. K. McLeitch, R. H. Martin.
Intermediate Years:—A. H. Bourne, S. E. McKyes, H. R. Baxter, D. O. Bremner, J. P. Costigan, A. Lister, D. K. Patterson, R. S. Perry, L. W. Bladon, H. G. H. Hunsard, L. M. Becker, J. R. Delahay, F. Consiglio.
First Year: H. J. Rasey, S. Gordon, T. R. Keene, L. E. Baker, N. K. Gordon.

MED. '25 LOST BASKETBALL CHAMPIONSHIP

Science Freshmen Showed Speed and Combination

SCORE 24-18

Winners Made Points on Fouls of Heavy Meds

While others were eating their dinner yesterday evening, Science '27 trotted out their basketball team and won the Interclass League Championship, defeating Med. '25 by a score of 24-18. The losers were much heavier than their conquerors and made a large number of personal fouls. In the second period Atner made his fourth, and had to retire for the remainder of the game. Gordon, Dempsey, McGill, Senior Hockey team captain, showed that he could play basketball as well as handle a hockey stick, scoring six of his team's baskets. But he could not get away from Moffat, the fast left guard of the Science team. Moffat played the best game for Science, making very effective passes and checking well.

In the first period, Dempsey opened the scoring, with a nice side shot. Science evened the score a minute later, and then the Meds, obtained the lead by a free throw. Thomas of the winners, scored three baskets in the first period, and when time was called the score stood 4-11 for Science.

Meds. played better basketball in this period, but could not keep from fouling on the lighter men. The free throws scored by the Freshmen won the game for Science.

The second period was opened by a personal foul on Atner. Thomas made one of the two shots count, but it was equalled a few seconds later when one of the Science defensemen fouled. The Meds. staged a rally at this point and scored a few baskets but soon their opponents relieved them of the ball, and put the game on ice. Frith, centre of the winning team, starred during the second half, dropping in some very pretty baskets. About six minutes before time was called, Atner made his fourth personal foul of the game, and the crippled Med. team lost its last chance of winning. At full time, the score stood 24-18 in favour of Science '27 who are now champions of the Interclass Basketball League. The teams lined up as follows:

Science '27	Med. '25
Forwards	
Thomas	Dempsey
Clark	Lindsay
Frith	Dawson
Defense	
Moffat	Atner
Cushman	Pindlay
Spares	
Franch	Halpern
Paik	Stewart

BASKETEERS MEET QUEENS ON SATURDAY

"We're Out for Gore" Says Their Manager

LAST GAME

Great Battle Expected at M.A.A.A. When Seniors Oppose Tri-colour

Confident, and full of fight, the Red and White senior basketballers are going into their last regular game of the season on Saturday when they stand up to the rush of Haslam and his tri-colour squad from Kingston. The spirit of the McGill players as they prepare for Saturday's encounter was well summed up in their manager's words last night, "We're out for gore!"

Queen's must win her game here if she is to finish the season alongside Varsity in first place and gain the right to a play-off with the Toronto aggregation. The whole Presbyterian team, the lanky Hunter at centre, Jones and Haslam, their great captain, as forwards, and Hannon and Thomas on defence, will be giving everything they have to achieve their end.

But the men of McGill, playing on a home floor, fighting to retrieve past losses and to gain a place in the win column before the season closes, are not going to be easily overcome and are quite likely on Saturday to deal the hopes of the Tri-colour a disastrous blow.

Coach Van Wagner will probably play the same team which took the floor last week in Kingston. Manson will be at centre, with Mondelsohn and Philipps alongside him. Blumenstein and Quackonhush will start on the defence, while Little, Brown and Boucher will sub. The team is a strong one and every man is out to win.

The preliminary game on Saturday at the M.A.A.A. between Intermediates "A" and Westmount is expected to be in itself worth the price of admission. The Intermediates are a classy aggregation, upon which the Seniors have been depending for players all season. This game starts at three while the senior fixture, which will be refereed by Mr. Manley, commences one hour later.

Bobby Burland's orchestra will be on hand and will jazz things up throughout the afternoon. The seniors are holding tonight their final practice prior to the Queen's game. It may be their last practice of the season. There is a possibility of McGill playing the M.A.A.A. team on the first of March. Whether the two Montreal teams will meet rests altogether with the Peel street men as the Red and White are quite willing to go up against them.

Ain't it a Fact?
"Yes, I have two sons in college."
"What is their yell?"
"Money, money, money."

ELECTRICAL CLUB TO DISCUSS PAPER

"La Gabelle Power Development" is Subject

An illustrated paper describing one of the largest types of power development will be read at the Technical Session of the Electrical Club next Friday, February 22 at 5 p.m.

C. Philipps of Sci. '24 will speak and his address will be on the "La Gabelle Power Development Plant." He worked there last summer and is therefore in a position to discourse very fully concerning it.

There are several reasons why this paper should be of special interest. It will show the operations of what may be called a very large type of plant. It will also demonstrate the principles of Hydro-Electric work. Furthermore, moving pictures of the plant in question will be shown shortly to students, and this explanation will make the picture far more interesting.

The Club will also hold a luncheon next Monday in the Union, at which Mr. Gregory of the Shawinigan Plant will speak. Further announcements concerning this will be made later.

TWO SCHOLARSHIPS IN ACTING OFFERED

The Gloucester School of the Little Theatre

The Gloucester School of the Little Theatre, Gloucester, Massachusetts, is offering two scholarships to undergraduates of American schools and colleges for its fifth summer session, July and August of 1924.

In their Little Theatre, a picturesque old wharf building nestled among the ship-yards and studios, the Gloucester Players last summer produced almost thirty plays which included such pieces as:

A Night at an Inn, Dunsany, Wurzel-Flummery, Milne, Riders to the Sea, Synge, The Land of Hearts Desire, Yeats, and Moon Tide, Clements. The school connected with the theatre offers courses in stage lighting, scenery, make-up, dancing, public speaking and acting. The seven members of the faculty include: Mrs. Florence Evans, Director of the Boston School of Public Speaking and The Florence Evans Players; Miss Florence Cunningham of the Vieux Colombier and founder of The Playhouse-on-the-Moors and Colin Campbell Clements (author of Plays for a Folding Theatre, etc.) who with Edna St. Vincent Millay and Eugene O'Neill has been called one of the founders of a new school of American playwriting.

VICTORIA RINK

Q-U-I-P-S

EDITED BY THE DAILY DRAGON

Well, folks, here we are again! We are beginning to wonder whether we are as popular as we used to be. But we are all too prone to underestimate ourselves, too much too soon, so we won't tell very much about ourselves this time, although if the editor were not so cramped for space we'd write a couple of columns on the subject—tell where we lived, tell what we looked like, where we lived, and everything. But as we can't talk on that most interesting subject we can talk about a veritable gem of literary art we have discovered in one of our contemporaries, the Western U. Gazette. Now this piece of poetry, although it might not suit the anaesthetic tastes of the writers of the Dilettante, we find it very interesting, both because of the theme and the fact that its style is extremely like that used by Coleridge in the "Old Sailer." It is highly probable that the name used by the author, "Gallimatis," is fictitious, but the story is so convincing, and has such an air of truth about it that we doubt our firmest beliefs. Read and judge for yourself. The poem follows:

RIME OF THE ANCIENT BOOTLEGGERS

It is an Ancient Bootlegger.
And he stoppeth one of three:
"By thy nose so red
And quivering hand,
Now wherefore stopp'st thou me?"

"The office doors are opened wide,
The boss has just gone in;
The stenographers are met, at gossip set;
Mayst hear the merry din."

He holds him with his shaking hand,
"I have a case," quoth he,
"Hold off! unhand me, red-nosed loon.
"You'll sell no booze to me."

He holds him with his glittering eye,
The second man stood still,
And listens while he tells his tale,
The Rimmer bath his will.

"The stuff is real, it's guaranteed;
I have a dandy stock,
Of Haig and Haig, or Triple Star,
Or any kind of crock."

The second man dug in his jeans—
His lips had long been dry—
But when he found that naught was there,
He could scarce forbear to cry.

He grabs him with his long left arm,
The third man turns around,
"I want a case of dandy hooch,
The best that can be found!"

"Of booze! Of booze! Thou wicked man!
Hark, while my tale I tell:
The youth who dances, drinks or smokes,
Is destined straight for hell!"

"He is accursed who loveth well
Tobacco, booze or dice,
For these three are the very worst,
The vilest of all vice!"

The Bootlegger whose nose was red,
Whose hand shook like a fan,
Did flee! oh, how the old bootlegger
Ran from the blue law man.

He went like one that hath been stewed,
With perspiration soaked;
And drank so much of his own booze,
The old Bootlegger croaked.

Is the Commerce Junior of Golf fame
who finds pale blue baby ribbon in
his coat pockets?

MECHANICAL CLUB VISITS PECK MILLS

Superintendent S. J. McCruden Explains Interesting Operations

PLANT EXPLAINED

Further Visit to Montreal Dry Dock Ship Building Company

Through the courtesy of Mr. J. S. McCruden, Superintendent of the Peck Rolling Mills, Ltd., a small party of Mechanical Club Members was privileged to visit the above works Tuesday afternoon. The party saw two rolling mills in operation; the smaller of these was a train of 9 inch rolls, driven by a 300 H.P. water-wheel, operating under an 18 foot head (the water being diverted from the neighbouring Lachine Canal and delivered into the river near the Grand Trunk Grain Elevators) directly connected to the train of rolls, and assisted by a 600 H. P. split-ring electric motor which takes care of the fluctuations of the load as the billets enter and leave the rolls. The larger mill has 14 inch rolls, and is driven by a specially designed two-speed 750 H.P. electric motor connected to the mill train by a rope drive, consisting of 32 - 1 1/2 inch ropes, so as to step down the speed in the ratio of 4-1. This motor was made by the Canadian Electric Company, Ltd., and has two complete sets of windings so that it can be run either at the speed of 20 r.p.m. or 80 r.p.m. It was installed two years ago, and the water-wheel that it replaces is now used to drive an electric generator. Both of these rolling mills are of the "three-high" type; the motor is connected to the centre rolls and the upper and lower lines of rolls are driven off the centre rolls by pinion gears. The separate rolls in each line of the train are keyed together by collars.

The cogging or roughing rolls are at the right-hand end of each train, and the passes or openings become smaller and smaller until the finishing rolls are reached at the left-hand end of the train. A white-hot billet is taken out of the soaking furnace and passed through between the centre and lower rolls, and back again through the next opening between the centre and upper rolls, then back again between the centre and lower rolls. It usually requires twelve or more such passes before the finishing rolls are reached, and by this time the iron has cooled until it is barely red-hot. From the centre to the centre rolls and the upper convey the rods to a grille-work platform where they are allowed to cool, after which they are passed through straightening rolls and are then cut to length.

Some of the rods are sold thus. Other square bars are put through a machine which twists them cold to be used for reinforcing concrete, while a certain amount of similar square bars are re-heated and made into railway spikes. Many of the small round rods are drawn into wire. Before this can be done, however, the scale must be removed by pickling the rods in large curing vats containing lime and sulphuric acid.

The wire is drawn through dies made of chilled cast iron, the holes being finished by grinding and polishing. As the hole in the die wears too large it is re-dressed and used for a larger size wire, until finally all the chilled surface is ground away. The wire-drawing table is operated by a water-wheel. A large quantity of the wire is made into nails. The party also saw "cut" nails and tacks being made. These are stamped out of long strips or blanks which are as wide as the nail is long. These blanks are cut out from plates that have been rolled thin and cured in the lime vats. Washers were also being made from similar blanks.

All the various scrap are "faggotted" together in bundles which are bound round with wire, and placed in a furnace where they are raised to a welding heat, in which state it is put through a squeezer which forces out the slag, after which it is rolled into heavy bars. These bars are stored, and as required are cut out into the proper length to be used as billets. The billets are cut to length in a shears capable of cutting a bar 5 inches square cold. This completes the instructive processes seen at the rolling mill. On the way home the party paid a short visit to the works of the Montreal Dry Dock and Ship Repairing Company, Ltd., where they went over the S.S. Canadian Engineer, a vessel of about 4,000 tons, built by the Collingwood Ship Building Company, Limited, Toronto, in 1921. This vessel was undergoing a general overhauling, which includes re-riveting many of her forward plates and replacing some of them, as the vessel had run aground and badly started her starboard strakes and bilges.

FIGURES TO HELP LEVY DISCUSSION

Division of \$12.00 Fee Among Organizations

SEASON '23-'24

Statistics Showing Number of Tickets Sold and Gate Receipts

In the "Daily" of Saturday, Feb. 16th, there appeared a letter asking, in view of the present discussion which has arisen over the suggestion of a levy on all students for season tickets of general admission to college and intercollegiate athletic contests, that the following be published about the season of 1922-23:—

(1) Number of undergraduates.
(2) Number of reserved, number of general admission, and number of routers, tickets sold for home games in each branch of sport showing price in each case.

(3) The proportion in which the \$12.00 levy is divided among the various organizations which benefit from it.

The Athletic Manager regrets that the figures for 1922-23 are not available at present. The following statistics are taken from the 1923-24 season:

(1)—There are 2011 undergraduates who contribute to the universal fee of five dollars (\$5.00) for the Athletic Board. Expenses for the upkeep of the grounds are taken out of this fund.

(2)—Tickets sold for Rugby Football:

657 season	\$5.00
12412 reserved	\$1.65
3570 reserved	\$1.10
119 reserved	\$1.75
2333 routers	\$1.55
2656 school	\$1.25
From the above receipts \$1553.53	

went to the M. A. A. A. and \$1200.00 went to Hamilton.

For English Rugby:

69 reserved	\$1.75
210 reserved	\$1.55
69 school	\$1.25

For Basketball:

218 reserved	\$1.75
170 reserved	\$1.55
35 rush	\$1.35

For Hockey:

112 season	\$5.50
891 reserved	\$1.65
738 reserved	\$1.10
1581 routers	\$1.55

The above statistics were taken from two games only. 50% of the gross receipts and the tax went to the Mount Royal Arena.

For Swimming and Polo:

94 reserved	\$1.75
144 reserved	\$1.55
79 rush	\$1.35

For B. W. & F.:

27 reserved (double)	\$1.35
74 reserved (double)	\$1.10
181 reserved	\$1.75
523 reserved	\$1.55
153 rush	\$1.35

For Track:

306 reserved	\$1.55
16 school	\$1.25

(3)—Division of \$12.00 fee:

Athletic Board	\$5.00
Students' Council	\$1.50
Undergrad. Soc.	\$1.00
Union	\$3.00
Daily	\$1.50

SOCIAL WORKERS HEAR LECTURE BY MR. FALK

The School for Social Workers was addressed by Mr. Falk on the subject of "What is Social Service?" at a meeting held recently in the Common Room of the Arts Building. The speech which was of an informal nature, was of great interest to all who were present.

Mr. Atkinson, who so ably lectured on "Recreation in Institutions" at a previous meeting, was received with much enthusiasm. There was not time for Mr. Atkinson to give an address, but his impromptu remarks were greatly enjoyed.

Refreshments were served at the close of the meeting. Mrs. Dawson poured tea and was assisted by Miss Duval and Miss Fletcher. The guests were Dr. Dawson, Mrs. Dawson, Miss Wisdom, Miss Gnaedinger, Mr. Atkinson, Mr. Falk.

LOST & FOUND

FOUND
A pair of trousers and a shirt. May be claimed at the Janitor's office, Macdonald Engineering Building.

LOST
Leather key case containing about 7 keys in Biological Bldg. or vicinity. Please hand to porter of Biological Bldg. or A. B. Hall, Med. Bldg.

LOST
Seven-ring note books, probably in Arts or Chemistry Buildings. Finder please return to Arts Janitor. The notes are valuable.

WESTMOUNT HIGH STAGE GOOD PLAY

Present Goldsmith's "She Stoops to Conquer"

BY SCHOOL

Scholars Will Give Play Again This Evening

The Westmount High School Dramatic and Debating Society staged a very successful performance of Oliver Goldsmith's "She Stoops to Conquer" last night before a large audience in the school hall. Although at times the play savoured of the amateurish, on the whole it was well put on. The performance should be of particular interest to many McGill students, because the university numbers among its undergraduates many former Westmount High scholars. The play will be staged to-night for the second time, and is probable that the company will show a certain amount of finish which was lacking in their premiere.

The play itself is a rollicking comedy of five acts, and the audience was kept amused throughout the entire two hours and a half during which the actors were on the stage. It is the only play by Oliver Goldsmith which has really been successful. As it is well-known, Goldsmith was a most versatile writer; he wrote a novel, a poem, and a play, all of which are known to-day, namely, "The Vicar of Wakefield," "The Deserted Village" and "She Stoops to Conquer".

The cast which staged the play last night was a very strong one and of a calibre that is seldom seen in an amateur performance, and especially in a high school play. The plot is a simple one, with many amusing situations that combine to render it very effective. Sir Charles Marlow, a London merchant, sends his son, Charles, to visit his old friend, Mr. Hardcastle, in order that Charles may meet Mr. Hardcastle's daughter and possibly fall in love with her. Charles undertakes the journey in company with his friend, Mr. George Hastings, who is the lover of Miss Kate Hardcastle's cousin. On the way, the travellers are misdirected by Hardcastle's stepson, Tony Lumpkin, to a supposed inn, which is in reality the home of the Hardcastles. Charles Marlow is a shy young man, and it is not until Kate Hardcastle stoops to disguise herself as a barmaid that he takes any notice of her, and actually falls in love. Considerable humour is added to several of the scenes by the antics of Diggory, one of the servants. The climax is reached when Sir Charles Marlow himself arrives and the deception is at an end. However, Charles loses his bashfulness when he learns who the girl he has been courting is, and the play ends happily.

The part of Charles Marlow was well taken by Howard Turner, who displays histrionic ability in his acting. Diggory is acted in truly humorous form by Fred Tippet, while Mr. Hardcastle and Tony Lumpkin are played by Abraham Kirschberg and Bernard Alexander respectively. The leading lady is Miss Dorothy Foster as Kate Hardcastle, and although it is evident that she finds the part rather difficult, she tackles it courageously. Her only weak spot is when she attempts to assume the character of the barmaid after playing the lady of the house, but this is scarcely perceptible, and is completely overshadowed by the rest of her part.

The play was under the direction of Miss J. W. Schantz, and the Westmount High School Jazz Orchestra rendered selections between the acts. The scenic effects were carried out excellently, although the play necessitates shifting the scenes four times.

FEAR NOT YE LADIES THAT DO WAX STOUT

Prof. Jacques Werner, a French physiologist, has made what is classed as a startling discovery that within a period of five hundred years the beauty standard will have completely changed, and the fat lady will come into her own.

Back in the savage era the fat woman was considered beautiful, and even now in the heart of Africa this sentiment prevails. A little later in history came a revolution in the beauty standard. The Greeks portrayed beautiful women who had plump faces, weak chins and long noses.

Professor Werner says that these changes in the beauty standard are due to the efforts of all women to conform to a certain type of beauty existing at the moment. When everyone has succeeded in attaining a set style of beauty, that type ceases to be beautiful and becomes common. At present all the ladies of fashion advocate the slender silhouette. When everyone, after suffering the tortures of dieting, has become slender, that type will not be considered beautiful and the natural reaction in a beauty standard will result.

So, all of you who are suffering because you are not now considered beautiful, have patience or wish you were living in a later age.

THE OFFICE BOY

THE OFFICE BOY who has been the object of characterization by writers, cartoonists, movie producers, and business men, both here and abroad is again being gently razed by efficiency experts and the editor of an English newspaper. The experts claim that 12 percent of all office boys read cheap novels, four percent sleep on their jobs, three percent collect stamps, 17 percent write their names down of times daily, and seven percent use typewriters that are forbidden to them. And that they are 35 percent sufficiently clever in following their bosses. The editor agrees with the experts in all but one thing. He puts their percentage of out writing the boss at 36 percent. Which after all is more than the office boy can say for the experts and the editor.—The Daily Mail.

form by Fred Tippet, while Mr. Hardcastle and Tony Lumpkin are played by Abraham Kirschberg and Bernard Alexander respectively. The leading lady is Miss Dorothy Foster as Kate Hardcastle, and although it is evident that she finds the part rather difficult, she tackles it courageously. Her only weak spot is when she attempts to assume the character of the barmaid after playing the lady of the house, but this is scarcely perceptible, and is completely overshadowed by the rest of her part.

The play was under the direction of Miss J. W. Schantz, and the Westmount High School Jazz Orchestra rendered selections between the acts. The scenic effects were carried out excellently, although the play necessitates shifting the scenes four times.

LAWS OF NEW JERSEY RESTRICT TEXT-BOOKS

In New Jersey, censorship has taken a new and vicious form. A bill before the State Legislature will, if passed, seriously interfere with the teaching of history in that state. The kernel of the bill reads as follows:

"No history of textbook or reference book shall be adopted for use or be used in any of the public and private schools, located in the State of New Jersey, which ignores, omits, discounts, or in any manner belittles, doubts or denies the events leading up to the Declaration of Independence or those connected with the War of Independence or any other war in which this country has been engaged; or which ignores, omits, distorts, or denies the deeds and accomplishments of the noted American patriots, or which questions the worthiness of their motives or casts aspersions upon their lives."

If such a bill is passed in New Jersey and the spirit of such legislation reaches into other states, a serious and harmful interference with the right of free speech, of free investigation and of the teaching of the truth may be the result.

Such legislation grows out of the absurd theory that many of this country's leading historical scholars are engaged in treasonable propaganda and are placing treasonable textbooks in the hands of school children. The charges are not only absurd but they are extremely dangerous for the successful continuation of such agitation must inevitably bring about a serious deterioration of textbooks and the teaching of history in American schools, since self-respecting scholars and teachers will not stoop to methods which advocate the falsifying of the truth.

All great men have made mistakes. Our national heroes were men, not demi-gods, and if we are to profit by experience, the failures of great men should be pointed out. After all, does it make much difference in our appreciation of this country's history if we know that John Hancock was a smuggler; or that Patrick Henry never made that famous speech about "Caesar had his Brutus etc."? What does count is truth, no matter how pretty the legends that are sacrificed at its shrine.

—Michigan Daily

News Item: Girls at Smith College are advised to eat a carrot a day for their complexion.

Fierce is the struggle for beauty. Powder and rouge and goo: Each one esteems it a duty To paint their eyebrows blue. Let them go on with the painting. Though it be poor and crude: It's on the carrots I'm pleading: And they must eat them nude. Perhaps they may get the habit: It would just wreck my life; I'd just as soon have a rabbit. Than keep a carrot wife. And as a friend said, "Thank heavens, whiskers aren't a disease."

—Daily Mail

NOMINATIONS

President of the Students' Council.

President of the McGill Union.

Vice-President of the McGill Union.

Secretary of the McGill Union.

Nominations for the above offices are called for. Nominations must be in writing and signed by at least twenty-five Students and be in the hands of the Secretary of the Students' Council by twelve noon, Saturday March 1st, 1924. Only those Students who have paid the Universal Fee are eligible to sign nominations and to vote.

Elections will be held on WEDNESDAY, MARCH 12th, 1924.

G. H. FLETCHER, Secretary.
